

CHRONOS • Impeller Packer

Impeller valve bag filler

Impeller valve bag filler

8 BPM PER SPOUT

Performance

This impeller packer is designed for maximum efficiency by entraining less air, which results in faster filling rates and smaller sized bags.

Design quality

Low-maintenance design with easy side access for impeller and housing liner.

Versatility

Multiple machines can be banked together under one bin, increasing speed and maximizing space.

 **Designed to handle powdered products ranging in particle size from microns to 200 mesh.**

Bulk materials

Fine powders

Powders

Bag types

Valve

Bag materials

Paper

Typical Equipment Dimensions

Length: 31.5" (800 mm)

Width: 21.5" (546 mm)

Height: 62" (1575 mm)

Filling tubes

Sized for 3 - 8" bag valves

Bag capacity

22 - 110 lb (10-50 kg)

Compressed air

1.0 ft³ @ 80 psig per bag packed

Electrical requirements

230/460 V, 3 ph, 60 Hz, 30/15 amps supply

7.5 hp, 1800 rpm TEFC motor

Features

NXT Weight Controller – provides digital display for operator use

Bulk and Dribble Product Flow – slow “top-off” improves accuracy

Swirl Tube Cleanout – product on scale is moved to the bag for best accuracy and cleanest operation

Inflatable Sealer – closes off the gap between the filling tube and the bag’s valve to minimize dusting during fill

Options

Variable Frequency Drive – allows tuning of the machine for optimal performance with different products

Metal Detector mounted around gum rubber filling tube behind fill spout

Lifetime

Client Solutions

Premier Tech Client Solutions take a personalized approach to **lifecycle management**, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
