

CHRONOS • OML-1060

Compact Open-Mouth Bagging Machine

Compact Open-Mouth Bagging Machine

UP TO 600–700 BAGS PER HOUR*

*Depending on product type and bag sizes

Take a leap into automation with the CHRONOS OML-1060, a new generation of budget conscious and compact bagger. This latest innovation automatically fills open-mouth bags with various free-flowing products.

The OML-1060 is reliable, easy-to-install in existing packaging line and features a small footprint.

This bagging system is ideal for low and medium capacities, offering quick and easy changeovers between different bag sizes or products. It uses simple technology, making it easy to operate and maintain.

The CHRONOS OML-1060 is more than just an affordable bagging solution, it's a first step towards automated packaging operation.

Bulk Materials

Powders

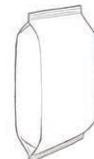

Granules

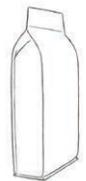

Bag Types

Pillow without gusset

Pillow with gussets

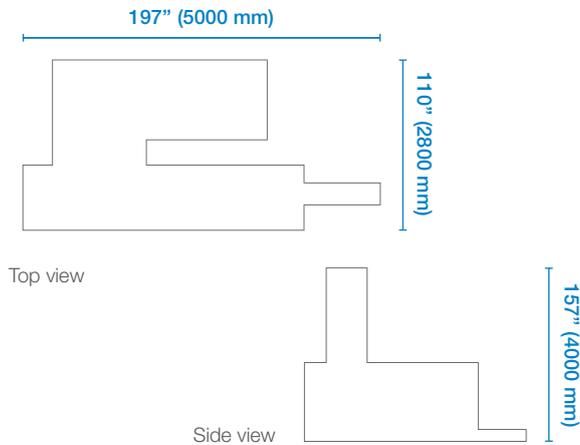

Cross bottom

Markets

Animal feed, rice, sugar, grain & seed, pet food, and plastic pellets

REQUEST A QUOTE >

Typical Equipment Dimensions

Bag materials

PPW (laminated and non-laminated polywoven)
PPW (polywoven) with liner (PE)
PE (polyethylene)
PVC (polyvinyl chloride) and Paper

Bag specifications

Width: 250 to 700 mm
Length: 480 to 1100 mm
Weight: 5 kg to 50 kg

Bag magazine capacity

Up to 200 bags, depending on bag thickness

Bag closing systems

Heat, impulse and band sealing
Plain sewing and plain sewing with folding
Crape tape

Electrical requirements

380/400V - 50 Hz - 3 PH + N available on request

Operating pressure

6 bar

Ambient temperature

5 °C to 40 °C

Noise level

75 dB

Control system

Programmable logic controller with large-colour
touchscreen HMI

Greater flexibility

to integrate with any closing system and additional
modules and upgrades in the future.

Minimum downtime

due to easy access to individual machine components
for quick maintenance.

The lowest Total Cost of Ownership

and optimal Return on Investment.

Maximum effectiveness

and optimum throughput due to fully automatic system.

Features

Gravity or belt feeder depending on the application

Fully automatic packaging machine

Clean operation due to stainless steel contact parts

Compact footprint

Quick and easy changeovers

Touch panel with graphic operator guidance

Options

Devices to handle gusseted bags

De-aeration system

Bag passing device

Tag applicator / printer

Bag turner for rotation bag / bag kicker

Lifetime

Client Solutions

Premier Tech Client Solutions take a personalized approach to lifecycle management, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
